Hydrobiologia
The International Journal on Limnology and Marine Sciences

Contents

Volume 352

Preface vii

List of Reviewers viii

Acid exposure in euryhaline environments: ion regulation and acid tolerance in larval and adult *Artemia franciscana*
by B.R. McMahon & J.E. Doyle 1–7

Effects of two oil dispersants on phototaxis and swimming behaviour of barnacle larvae
by R.S.S. Wu, P.K.S. Lam & B.S. Zhou 9–16

Heavy metal accumulation in tissue/organs of a sea cucumber, *Holothuria leucospilota*
by J. Xing & F.-S. Chia 17–23

Mapping and characterization of mangrove plant communities in Hong Kong
by N.F.Y. Tam, Y.-S. Wong, C.Y. Lu & R. Berry 25–37

Gas exchange responses of a mangrove species, *Avicennia marina*, to waterlogged and drained conditions
by G. Naidoo, H. Rogalla & D.J. von Willert 39–47

Mangrove wetlands as wastewater treatment facility: a field trial
by Y.S. Wong, N.F.Y. Tam & C.Y. Lan 49–59

Wood structure of *Aegiceras corniculatum* and its ecological adaptations to salinities
by Q. Sun & P. Lin 61–66

Accumulation and distribution of heavy metals in a simulated mangrove system treated with sewage
by N.F.Y. Tam & Y.-S. Wong 67–75

Incidence of heavy metals in the mangrove flora and sediments in Kerala, India
by G. Thomas & T.V. Fernandez 77–87

Response of *Aegiceras corniculatum* to synthetic sewage under simulated tidal conditions
by Y.-S. Wong, N.F.Y. Tam, G.-Z. Chen & H. Ma 89–96

Size-fractionated productivity and nutrient dynamics of phytoplankton in subtropical coastal environments
by H. Wang, B. Huang & H. Hong 97–106

Long-term changes in hydrography, nutrients and phytoplankton in Tolo Harbour, Hong Kong
by Y.-K. Yung, C.K. Wong, M.J. Broom, J.A. Ogden, S.C.M. Chan & Y. Leung 107–115

Environmental and nutritional factors which regulate population dynamics and toxin production in the dinoflagellate *Alexandrium catenella*
by G.K.Y. Siu, M.L.C. Young & D.K.O. Chan 117–140
Are changes in N:P ratios in coastal waters the key to increased red tide blooms?
by I.J. Hodgkiss & K.C. Ho 141–147
A comparison of marine planktonic and sediment core diatoms in Hong Kong with emphasis on *Pseudo-nitzschia*
by M. Dickman & T. Glenwright 149–158
The essential elements of science and management in coastal environmental managements
by Chua Thia-Eng 159–166
Status, problems and prospects of stock enhancement in Taiwan
by I. Chiu Liao 167–180
Human influence or natural perturbation in oceanic and coastal waters – can we distinguish between them?
by J.-O. Strömberg 181–193
Toxic events in the northwest Pacific coastline of Mexico during 1992–1995: origin and impact
by J.L. Ochoa, A. Sánchez-Paz, A. Cruz-Villacorta, E. Nuñez-Vázquez & A. Sierra-Beltrán 195–200
A biological survey of ballast water in container ships entering Hong Kong
by K.H. Chu, P.F. Tam, C.H. Fung & Q.C. Chen 201–206
Decision-making processes in ecological risk assessment using copper pollution of Macquarie Harbour from Mt. Lyell, Tasmania, as a case study
by J.R. Twining & R.F. Cameron 207–218
Spatial variations of size-fractionated chlorophyll, cyanobacteria and heterotrophic bacteria in the central and western Pacific
by N. Jiao & I.-H. Ni 219–230
Reproductive function state of the scallop *Mizuhopecten yessoensis* Jay from polluted areas of Peter the Great Bay, Sea of Japan
by M.A. Vaschenko, I.G. Syasina, P.M. Zhadan & L.A. Medvedeva 231–240
The use of malformations in pelagic fish embryos for pollution assessment
by H. von Westernhagen & V. Dethlefsen 241–250
Polynuclear Aromatic Hydrocarbons (PAHs) in fish from the Red Sea Coast of Yemen
by A. A.-Z. DouAbdul, H.M.A. Heba & K.H. Fareed 251–262
The application of gene transfer techniques to marine resource management: recent advances, problems and future directions
by F.Y.T. Sin, U.K. Mukherjee, L. Walker & I.L. Sin 263–278
Probiotic effect of lactic acid bacteria in the feed on growth and survival of fry of Atlantic cod *(Gadus morhua)*
by A. Gildberg, H. Mikkelsen, E. Sandaker & E. Ringø 279–285
Translocation of assimilates in *Undaria* and its cultivation in China
by Wu Chaoyuan & Meng Jianxin 287–293
The fate of traditional extensive *(gei wai)* shrimp farming at the Mai Po Marshes Nature Reserve, Hong Kong
by M.W. Cha, L. Young & K.M. Wong 295–303
